**REMARKABLE CURES.** THIRTY YEARS STANDING!

MOUNT WASHINGTON, Berk Co., Nov. 29, 1847.  
WYATT & KETCHAM, Agents. For thirty years I have been successful with Piles, great and small, in inflammation, causing tumors and prolapses of the bowels, and which had resisted all the medical treatment. Dr. Chapman, of Boston, has written me, that at that time my suffering fully described was not known to him, unable to help himself, and as far as given by me, he said, "I can only say that you are a physician and friend in despair of ever gaining my release." I waited for a time before I communicated with Dr. Upham. Instantly he sent me his directions, and my medical clothes were made. But under the benevolent eye of Providence and the use of Dr. Upham's Electuary, through the power of the divine blessing, I was restored to health, and within a few months, was able to go about my business again. This is the power of Dr. Upham's Electuary. It is an internal remedy, and cures all the complaints of the bowels, and bleeds the relaxed state of the bowels.
